

# UNI CUT

*cutting machine for plastic tube*

TR-TECH

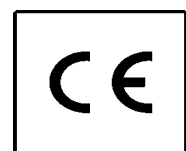

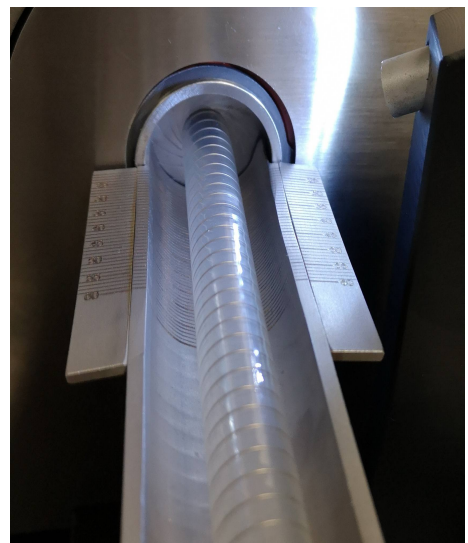

Fully electric semi-automatic cutter, designed to have no cutting length limitations. Taking advantage of a very high cutting speed given by a rotating blade mounted on a high performance motor is able to guarantee a high cutting quality on a wide range of plastic materials.

Exclusive double Iris cutting bushing that accepts a large variety of tubes including conical and variable diameter ones.

Product code: 1289

### Technical features:

- Power supply: 110-230 V; 50/60 Hz
- Electric absorption: 300 W
- Cutting length: free (graduated index)
- Weight: 15 Kg
- Tube diameters: from 4 to 25 mm
- Noise level: 52 dB
- Dimensions: 700x350x470 mm
